DISTANCE LEARNING POLICY (HS)

Distance Learning is a means for school districts to provide courses that normally would not be offered because of low enrollment or other constraints.

Students currently have the option of enrolling in courses through Northern State University E-Learning Center, Apex Learning, South Dakota Virtual School, BHSU, SDSU, DSU, USD, NSU and all state technical schools. Students must communicate their desire to take these courses during registration in the spring. Students will be given information regarding these organizations prior to registering for classes.

NSU E-learning classes are two-way interactive video or online format class and are offered free of charge to students who are accepted through a registration process. The school will purchase any required materials provided that the student complete the course and follow the behavior policy. Any student who fails to complete the course or is removed from the class for disciplinary reasons will be required to pay for any material purchased by the school for said class.

South Dakota Virtual School is a clearinghouse of courses offered by various School Districts across the state. The cost of these courses vary by course and sending district. All costs associated with these courses are born by the student.

Course offered by State or Private Universities or Technical Schools have a variety of delivery methods and must be approved by administration and all costs are the responsibility of the student.

***Deuel school will accept credit given by the above listed, and it will count toward graduation from Deuel School. Permission to replace a class provided by Deuel School with a class from any State University or Tech School, APEX, SILDL, or DIAL must be approved by the Principal prior to registering for the class. Students who register for classes from NSU will be allowed to drop prior to the class beginning providing no materials for the course have been purchased by the District.

Because of the uniqueness of Distance Learning, certain standards are expected of the students enrolling in these courses. This policy is intended to make both the students and parents aware of the standards expected of them when enrolling in such courses.

LATE WORK POLICY/BEST PRACTICES PROCEEDURE (MS and HS)

The policy will operate under the following premises:

- Deadlines set by the teacher will have to be met to avoid grade deduction.
- Parent contacts may be made when students have a D or F as a standing grade (MS and HS).
- Parents will be contacted with weekly emails explaining student/teacher pace (MS).

EXTRA-HELP FRIDAYS (MS and HS)

The Deuel School District will hold extra-help sessions on Fridays in which regular school classes are not in session. The extra-help sessions are designed to help students pass academic programs and an opportunity to have 1 to 1 time with classroom instructors. Students that choose not to attend are forfeiting an opportunity to improve and correct deficiencies. The District strongly encourages taking full advantage of this service.

*******All students regardless of current letter grade have the opportunity to take advantage of the Help Sessions

TEXTBOOK (MS and HS)

All text and reference books are loaned to students without charge. Lost books must be paid for and fines will be charged for damage to books. Fines will be assessed as follows: 0-2 years - 50%; 3-4 years - 30% and 5 years or more - 15%. All textbooks will be evaluated by the teacher and student at the beginning and the end of the year to assess damages properly. The writing of obscenities in books will be treated as destroying the book and the student will be assessed the cost of replacing it.

ATTENDANCE POLICY (MS and HS)

Regular attendance is essential to a student's success in school. Parents are encouraged to urge their children to attend school regularly and to keep them out only when it is absolutely necessary. The absence of a student from class is a loss and a handicap to the student and because scholastic achievement is often directly related to attendance, it is important

that students attend regularly. If a student is absent from school, parents are asked to call the school on the day that the student will be absent. If possible, we would like to receive the call by 9:00 a.m. The student will have two full days for each full day of excused absence, maximum of six full days, to complete work missed unless arrangements have been made with the individual classroom instructor. Please note that Fridays count as one of the six days providing we have an extra-help session scheduled for that Friday. Completion of missed work is the responsibility of the student. After a student reaches his/her 7th day of absence in a given class period during the duration of the semester a conference between the Principal, student, and parents will be arranged to discuss his/her poor attendance and a student/parent contract will be signed outlining the stipulations for receiving credit. Should the pattern of attendance persist the District may choose to remove credit for those classes. (This includes excused and unexcused absences) Every absence will be examined and approved only if it is for necessary reasons. A doctor's confirmation of illness may be needed for any illness over two (2) days in length. The administration shall make the final decision as to whether or not an absence is to be excused or unexcused. Unexcused absences are addressed under the disciplinary policy. Absence from school due to participation in school activities is not recorded as an absence. Any prolonged absence will be considered by the administration and a decision will be reached.

TARDINESS (MS and HS)

If for any reason a student is not in their designated classroom at the time the period is scheduled to begin, the student may be counted tardy. If a teacher or administrator retains a student, a pass is necessary to admit the student to class and to remove the given tardy.

Tardiness are handled by the classroom teacher, and individual classroom rules will apply. Repeat offenders may be subject to detention and possible in-school suspension.

BEHAVIOR EXPECTATIONS (MS and HS)

Each student will be responsible for promoting a positive and healthful environment for others by maintaining order, self-discipline and having consideration for the rights and property of others. As such, each student will bear the responsibility for his own conduct.

Each student will be responsible for neatness and cleanliness of personal attire and hygiene.

Each student will respect other students, teachers, administrators and other school personnel and visitors as human beings and fellow citizens of the school community.

Each student will respect the personal property of others and refrain from causing intentional damage, unnecessary wear and tear to books and equipment, school materials, school buildings and furnishings, and the personal property of others. Each student will refrain from fighting, creating disturbances, denying others the use of school facilities or buildings, using or carrying any weapon on school grounds, intentionally injuring another person or acting in such a manner as to expose others to risk or danger of harm or injury. A student will not use threats or intimidation against any other person.

Each student will respect the health and safety of others and will refrain from using, possessing, transmitting, or being under the influence of any alcoholic beverage, narcotic substance, illegal or prohibited drug or substance; or by engaging in gambling, excursion, theft, assault, excessive noise or any other unlawful activity.

Each student will respect the educational process and learning environment of others by refraining from intentional or habitual tardiness, truancy or any activities which diminish the rights of others or the opportunity for other students to receive an education and obtain the maximum benefit from the school district's instructional program.

CONSEQUENCES (MS and HS)

Realizing that discipline is essential to the normal operation of the school, any or all of the following steps may be taken to help students who have demonstrated misbehavior:

1. Counseling
2. Parental Conference
3. Contracts
4. Detention
5. Suspension from class

6. In-school suspension
7. Out-of-school suspension
8. Expulsion

Understand that steps taken will depend on the nature of misbehavior, a student's past record, and more importantly, the school official's opinion as to what is necessary to ensure appropriate behavior by this particular student.

DISCIPLINE (MS and HS)

It is the objective of the District to recognize, preserve and protect the individual rights of all students, and yet at the same time to encourage and enforce the exercise of these rights within the necessary framework of an orderly, efficient and continuing school program. Therefore, discipline and structure are necessary standards for the maintenance of an atmosphere where orderly learning is possible and encouraged.

The administration will enforce the district discipline policy unless unusual circumstances exist which can be more properly handled by other actions. Parent(s) or guardian will be notified for disciplinary actions involving out of school suspension. Parents will also be notified when law enforcement is involved except in cases of child abuse and/or sexual abuse.

DISCIPLINE POLICY (MS and HS)

The discipline policy applies to any behavioral issues the Administration determines to be detrimental or a distraction to the educational environment. Such issue may include, BUT IS NOT LIMITED TO, alcohol, tobacco, drugs, controlled substances, prescription or non-prescription drugs, electronic cigarettes, vape machines, fighting, unexcused absences, dress code, harassment, computer violations, vulgar or abusive language, insubordination, destruction of property, theft*, public displays of affection, inappropriate materials in school buildings or on school grounds. All disciplinary issues will be reviewed by administration and consequences will be at the discretion of the Principal.

*Students will be required to replace or pay for damaged stolen property.

GENERAL CONDUCT (MS and HS)

The issues addressed are general rules of the school, which are important procedures toward establishing an environment conducive to learning.

1. Student will not be at a locker during class time.
2. Student will remain in a flex times and learning labs 5 minutes before checking out and will return with 5 minutes at the end.
3. Hats, caps, stocking hats, blankets, and hoods will be removed and put away when in the building.
4. Passes will be used and times will be written on them.
5. Students will not use foul language.
6. Students will not demonstrate inappropriate, disruptive behavior.
7. Students will show proper respect to employees of the Deuel School District.

Infractions concerning the above mentioned issues as well as those determined inappropriate by teachers and administration will result in parental contact and/or additional administrative reprimanding. Time and length of the consequences will be determined by the issuing teacher or administrator.

IN-SCHOOL SUSPENSION/OUT-OF-SCHOOL SUSPENSION (MS and HS)

In-school suspension (ISS) is one level of disciplinary action at Deuel High School. Students may be assigned one to ten days suspension from classes. All ISS will be served on Friday mornings unless otherwise determined by administration.

Serious or repeated violations of school policies will result in Out of School Suspension (OSS). The severity of OSS will depend upon the offense.

No attending school activities on, or off, school property during Out of School Suspension (OSS).

All in-school or out-of-school suspension students are required to complete all assignments with a dockage in grade. No other work will be graded until this is done.

EXPULSION (MS and HS)

Expulsion is when a student is permanently removed from the school setting and is no longer a student at Deuel High School. Expulsion is an administrative option, if deemed necessary. No student will be allowed to attend school activities on, or off, school property if expelled.

ELECTRONIC COMMUNICATION DEVICES (MS and HS)

All electronic communication device policies are handled by the classroom teacher, and individual classroom rules will apply. Repeat offenders may be subject to grade deductions, detention, and possible in-school suspension. Students are allowed to use electronic communication devices in the hallways and during lunch periods. Students who use the electronic communication devices improperly are subject to having them confiscated by teachers and/or administration.

CHEATING OR PLAGIARISM (MS and HS)

Cheating or plagiarism will not be tolerated at the Middle or High school levels. Any student caught cheating or plagiarizing on a test or an assignment will receive a zero for that test or assignment. In addition to the zero score, students in possession of materials belonging to the teacher, the school, or another student, without the permission of those agents will be disciplined according to the Discipline policy.

THEFT/STEALING (MS and HS)

Any student found guilty of stealing will be dealt with under the discipline policy and such actions may be turned over to local law enforcement. Students will be required to make reparations or return the item in questions in its original condition at time of theft.

DRESS CODE/PERSONAL HYGEINE (MS and HS)

The Board recognizes that it is the prerogative of parents to determine what is appropriate dress and grooming for their children in accordance with the age and grade of these students. It is hoped that decisions made by parents and students in these matters will reflect favorably upon the individual, the school, and the community.

There are certain restrictions necessary on a student's dress and grooming when such dress and grooming may create a health or safety hazard; invade the rights of others; or, be disruptive to the educational environment by detracting from the decency and decorum in school. It will be the responsibility of the building principal to determine violations of the intent to this policy and to take necessary corrective action.

BULLYING & HARASSMENT (MS and HS)

The District is committed to maintaining a constructive, safe, and bullying-free school climate that is conducive to all students' educational opportunities and which fosters an environment in which all students are treated with respect and dignity. Bullying can inhibit a student's educational opportunities and may also have long-term negative effects on a student. Bullying of students shall not be tolerated and is strictly prohibited. Bullying of students from other schools who are at a District activity, parents, school employees, guests, visitors, volunteers and vendors of the District shall also not be tolerated and is strictly prohibited.

This policy shall not be interpreted or applied to prohibit civil exchange of opinions or debate protected under the state or federal constitutions if the opinion expressed does not otherwise materially or substantially disrupt the education process or intrude upon the rights of others. However, conduct which substantially interferes with the work of the school, causes material and substantial interference with school work and discipline, and might reasonably have led school authorities to forecast substantial disruption of or material interference with school activities is not constitutionally protected speech and is therefore prohibited under this policy.

All students, parents, employees, guests, visitors, volunteers and vendors shall conduct themselves in a civil and responsible manner and in a manner consistent with school policies related to student, parent, employee and visitor conduct. This policy prohibiting bullying shall apply to all students, parents, employees, guests, visitors, volunteers and vendors while on school property, while attending or participating in school activities, on school-owned property or on non-school property, while in any school-owned or leased vehicle, while at a school bus stop, or when in a private vehicle located on school property during school or during school activities..

The District shall investigate all reported instances involving bullying. Unless a different person is designated by the Superintendent to conduct the investigation, the Principal of the school attendance center where the bullying is alleged to have occurred is responsible for investigating the alleged bullying. Allegations of bullying may also be reported by the administration to other authorities, including but not limited to law enforcement.

Students who violate this policy shall be subject to appropriate disciplinary action, up to and including expulsion. Employees who violate this policy shall be subject to appropriate disciplinary action, up to and including termination of employment. Parents, guests, visitors, volunteers, and vendors who violate this policy may be prohibited from being on school property.

Pursuant to state law:

- A. any school district employee, school volunteer, student, or parent who promptly reports in good faith an act of bullying to the appropriate school district official as designated in the school district's policy, and who makes the report in compliance with the provisions of the school district's policy, is immune from any cause of action for damages arising from failure to remedy the reported incident, and
- B. no cause of action is created against the school district, school district employee, school volunteer, student, or parent unless there has been substantial noncompliance with the school district's policy which results in injury to a person.

The District will maintain confidentiality to the maximum extent possible under the circumstances. However, a person reporting bullying conduct must understand that should the administrator who is investigating the report determine there is reasonable cause to suspect that bullying did occur which could result in administrative discipline or a referral to the School Board, the person alleged to have abused the other person may have the right to know the identity of the person(s) making the report in order that he/ she may have an opportunity to defend himself/herself. The District strictly prohibits retaliation against any person because he or she has made a report, testified, assisted, or participated in the investigation of a report of alleged bullying. Retaliation includes, but is not limited to, any form of verbal or physical reprisal or adverse pressure. The person(s) alleged to have bullied another person shall not directly or indirectly (such as through another person) harass, pressure, or retaliate against any other person because of the complaint being reported. A violation of this provision may lead to separate disciplinary action based on the retaliation. Any person who believes he or she is being subjected to retaliation because of his or her involvement with a bullying report should immediately contact a school administrator.

Complaints against school employees and complaints related to Sexual Harassment are addressed through other school district policies and not through this policy.

The report may be made verbally or in writing. A report may be made anonymously, although disciplinary action may not be based solely on an anonymous report. The investigation shall be conducted promptly and completed in a reasonable time frame given the nature of the complaint.

The person alleged to have bullied another person will be notified that a complaint has been filed pursuant to this policy and that the complaint is being investigated. The name of the person making the complaint will not be disclosed to the person alleged to have violated this policy unless and until the investigation results in a determination that there is reasonable cause to suspect that bullying did occur.

Upon reasonable suspicion by the school administrator responsible for the investigation that the allegation of bullying may be true, the employee, student or other person accused of bullying conduct shall be notified in writing that reasonable suspicion exists that the complaint may be valid, including a statement of the facts supporting the determination that reasonable suspicion exists, and the name of the alleged victim.

The person alleged to have bullied another person in violation of this policy shall be afforded an opportunity to respond to the allegation of bullying but is not required to submit a response.

Pending the outcome of the investigation the school administrator responsible for conducting the investigation may take such action consistent with school policy and state law as deemed appropriate in order to facilitate the investigation and protect the rights of all persons involved. If there is reasonable suspicion to believe that a person bullied another person while at school or at a school activity on non-school property in violation of this policy, the administration may prohibit that person from being on school property or at school activities.

At the conclusion of the investigation, the Principal shall make a determination as to whether bullying did occur or whether the facts are insufficient to determine that a determination that bullying occurred. The complainant and the person alleged to have bullied another person will receive written notice of the Principal's determination. Should the Principal conclude that bullying did occur, the Principal shall take such action as deemed appropriate, which may include imposing disciplinary consequences on the person found to have violated this policy prohibiting bullying.

SEXUAL HARASSMENT POLICY (MS and HS)

The District is committed to a school environment which is free from sexual harassment and conducive to all students' educational opportunities. Sexual harassment can inhibit a student's educational opportunities and an employee's work. Sexual harassment of students attending school in the District or students from other schools who are at a District activity, and sexual harassment of school employees, school volunteers, parents, guests, visitors and vendors of the District shall also not be tolerated and is strictly prohibited.

All students, school employees, school volunteers, parents, guests, visitors and vendors shall conduct themselves in a civil and responsible manner and in a manner consistent with school policies. This policy prohibiting sexual harassment shall apply to all students, school employees, school volunteers, parents, guests, visitors and vendors while on school property, while attending or participating in school activities, on school-owned property or on non-school property, while in any school-owned or leased vehicle, while at a school bus stop, or when in a private vehicle located on school property during school or during school activities.

The District shall investigate all reported instances involving sexual harassment. Attempts to informally or voluntarily resolve the complaint should not delay the commencement of the District's investigation. Unless a different person is designated by the Superintendent to conduct the investigation, the school administrator of the school attendance center where the sexual harassment is alleged to have occurred is responsible for investigating the alleged sexual harassment. Allegations of sexual harassment may also be reported by the administration to other authorities, including but not limited to law enforcement.

The District will maintain confidentiality to the maximum extent possible under the circumstances. However, a person reporting sexual harassing conduct must understand that should the administrator who is investigating the report determine there is reasonable cause to suspect that sexual harassment did occur which could result in administrative discipline or a referral to the School Board, the person alleged to have sexually harassed another person may have the right to know the identity of the person(s) making the report in order that he/ she may have an opportunity to defend himself/herself.

The District strictly prohibits retaliation against any person because he or she has made a report, testified, assisted, or participated in the investigation of a report of alleged sexual harassment. Retaliation includes, but is not limited to, any form of verbal or physical reprisal or adverse pressure. The person(s) alleged to have sexually harassed another person shall not directly or indirectly (such as through a third person) harass, pressure, or retaliate against any other person because of the complaint being reported. A violation of this provision may lead to separate disciplinary action based on the retaliation. Any person who believes he or she is being subjected to retaliation because of his or her involvement with a sexual harassment report should immediately contact a school administrator.

Students who violate this policy shall be subject to appropriate disciplinary action, up to and including expulsion. Employees who violate this policy shall be subject to appropriate disciplinary action, up to and including termination of employment. School volunteers, parents, guests, visitors, and vendors who violate this policy may be prohibited from being on school property.

Complaints against school employees and complaints related to bullying are addressed through other school district policies and not through this policy.

SECTION 2 – Sexual Harassment Defined

Sexual harassment is defined as sexually oriented words and/or actions which tend to annoy, alarm or be physically or verbally abusive toward another person and which serve no legitimate or valid purpose regardless of the intent of the person accused of the sexually harassing conduct. Not all harassment falls within the definition of sexual harassment (i.e., harassment that is of a sexual nature). Other laws, regulations and policies also prohibit inappropriate conduct and provide a means for addressing inappropriate conduct should it occur.

Sexual harassment is a specific type of harassment which is prohibited under this policy. Examples of sexual harassment include, but not limited to:

1. Unwelcome sexual flirtations, advances or propositions;
2. Verbal comments, jokes, or abuse of a sexual nature;
3. Graphic verbal comments about an individual's body;
4. Sexually degrading words used to describe an individual;
5. Displaying pornographic material;
6. Physical contact or language of a sexually suggestive nature.

SECTION 3 – Sexual Harassment Reporting Procedure

Any individual who believes that he or she has been or is being subjected to sexual harassment or has reason to suspect another person has been or is being subjected to sexual harassment should immediately report it to a teacher, guidance counselor, or school administrator. The report may be made verbally or in writing. A report may be made anonymously, although disciplinary action may not be based solely on an anonymous report. If disciplinary action is being requested, the individual reporting the sexual harassment will be asked to either submit a signed written complaint or sign a completed Sexual Harassment Report Form, Exhibit ACAA-E(1), verifying the accuracy of its content. The written complaint or Sexual Harassment Report Form must include the following:

- the date the written complaint was filed or the Sexual Harassment Report Form was completed,
- the school employee receiving the complaint (if applicable),
- the name of the person reporting the sexual harassment,
- the address/phone # of the person reporting the sexual harassment,
- the specific conduct or nature of the sexual harassment complaint including the person(s) alleged to have sexually harassed the complaining party or another person, the date(s) and location where the conduct occurred, witnesses, etc.,
- the date the school employee completed the form (if applicable),
- the date and signature of the person reporting the sexual harassment .

If the signed written complaint was given to a teacher or guidance counselor, or if the Sexual Harassment Report Form was completed by a teacher or guidance counselor, the teacher or guidance counselor shall forward the complaint or Sexual Harassment Report Form to the teacher's building school administrator.

SECTION 4 – Procedure for Addressing Sexual Harassment Complaints

STEP 1: School Administrator Investigation and Determination.

Should there be a report which alleges a District student, employee, school volunteer, parent, guest, visitor or vendor has been subjected to sexual harassment, an investigation into the alleged sexual harassment will be initiated. The District's investigation may include, but is not limited to, such things as interviewing individuals with actual or possible knowledge regarding the conduct in question, identifying facts related to the conduct in question, identifying when and over what period of time the conduct is to have occurred, determining whether the conduct negatively affects the educational opportunities or employment condition of the victim, identifying prior history of a similar nature by any of the individuals involved, and attempting to obtain possible verification from other persons. The investigation by the school administrator responsible for the investigation shall be conducted promptly and completed in a reasonable time frame given the nature of the complaint. Unless the nature of the complaint and investigation dictate otherwise, the investigation should be completed and determination made by the school administrator on the merits of the complaint within thirty (30) calendar days of receipt of the complaint.

The person alleged to have sexually harassed another person will be notified that a complaint has been filed pursuant to this policy and that the complaint is being investigated. The name of the person making the complaint will not be disclosed to the person alleged to have violated this policy unless and until the investigation results in a determination that there is reasonable cause to suspect that sexual harassment did occur.

Upon reasonable suspicion by the school administrator responsible for the investigation that the allegation of sexual harassment may be true, the employee, student or third person accused of sexual harassment conduct shall be notified in writing that reasonable suspicion exists that the complaint may be valid, including a statement of the facts supporting the determination that reasonable suspicion exists, and the name of the alleged victim.

The person alleged to have sexually harassed another person in violation of this policy shall be afforded an opportunity to respond to the allegation of sexual harassment but is not required to submit a response.

Pending the outcome of the investigation the school administrator responsible for conducting the investigation may take such action consistent with school policy and state law as deemed appropriate in order to facilitate the investigation and protect the rights of all persons involved. If there is reasonable suspicion to believe that a third person sexually harassed a student, employee or guest while at school or at a school activity on non-school property in violation of this policy, the administration may prohibit that person from being on school property or at school activities.

At the conclusion of the investigation, the school administrator shall make a determination as to whether sexual harassment did occur or whether the facts are insufficient to determine that a determination that sexual harassment occurred. The complainant and the person alleged to have sexually harassed another person will receive written notice of the school administrator's determination. Should the school administrator conclude that sexual harassment did occur, the school administrator shall take such action as deemed appropriate, which may include imposing disciplinary consequences on the person found to have violated this policy prohibiting sexual harassment.

STEP 2: Appeal to the Superintendent

The following procedure shall be used to address an appeal of the school administrator's decision in Step 1 to the Superintendent:

The Superintendent shall uphold, reverse, modify the school administrator's decision, or the Superintendent may refer the matter back to the school administrator for further investigation and supplemental decision which decision may restate, modify or reverse the school administrator's initial decision. A supplemental decision by the school administrator after a referral back to the school administrator is subject to appeal to the Superintendent. The time frame for rendering a decision by the Superintendent may be extended by the Superintendent for good cause and upon written notification to all parties, which notification shall identify the reason for the extension and the date on or before which the decision shall be rendered.

STEP 3: Appeal to the Board

If either party is not satisfied with the Superintendent's decision, or if the Superintendent does not render a written decision within fourteen (14) calendar days of the receipt of the appeal, that party may appeal to the School Board by filing with the Business Manager using Form ACAA-E(3) within ten (10) calendar days of receipt of the Superintendent's written decision, or ten (10) days of the deadline for the Superintendent's written decision, whichever comes first. The appeal shall be in writing and the appealing party must attach to the appeal the school administrator's written decision, the appeal to the Superintendent, and the Superintendent's written decision or notice of the Superintendent's failure to render a written decision.

The following procedure shall be used by the Board to address an appeal of the Superintendent's decision on the merits related to a sexual harassment complaint:

- F. All parties shall be given the opportunity to make an opening statement, with the appealing party being given the first opportunity, followed by the other party, and then the Superintendent;

- I. Unless a witness is a party to the appeal, witnesses may be present only when testifying unless the hearing officer rules otherwise. All witnesses must take an oath or affirmation administered by the School Board president, hearing officer or other person authorized by law to take oaths and affirmations;
- J. The hearing officer shall admit all relevant evidence. The hearing officer may limit unproductive or repetitious evidence. The strict rules of evidence do not apply. *Moran v. Rapid City Area School Dist.*, 281 N.W.2d 595. 602 (S.D. 1979).
- K. All parties shall be given the opportunity to make a closing statement, with the appealing party having the first opportunity, followed by the other party, and then the Superintendent. The appealing party shall be given the opportunity for a brief rebuttal;
- L. After the evidentiary hearing, the Board shall continue to meet in executive session for deliberations. No one other than the hearing officer may meet with the Board during deliberations. The Board may seek advice during deliberation from an attorney who has not represented any of the parties to the hearing. Consultation with any other person during deliberation may occur only if a representative of both parties and Superintendent are present. The Board may, in its sole discretion, continue the proceedings and make a final decision on the appeal at a later date. Within twenty (20) calendar days of the hearing, the Board shall render its decision and issue its written Findings of Fact, Conclusions of Law and Decision. The time frame for rendering a decision may be extended by the Board President for good cause and upon written notification to both parties and the Superintendent, and the notification shall identify the reason for the extension and the date on or before which the decision shall be rendered;
- M. The decision of the School Board must be based solely on the evidence presented at the hearing and must be formalized by a motion made in open meeting. The Board will convene in open session and a motion to uphold, reverse, or modify the Superintendent's decision shall be made and voted upon. Findings of Fact, Conclusions of Law and Decision, consistent with the Board motion shall be in writing and approved by the Board. Both parties, the school administrator and the Superintendent will receive copies after the Findings of Fact, Conclusions of Law and Decision are approved by the Board.

Following the Board hearing, should the Board determine there has been a violation of this policy prohibiting sexual harassment, Board action may include but is not limited to the following: (1) suspend or expel a student from any or all school programs, including but not limited to classes, extracurricular activities, or attendance at school activities; (2) pursuant to statute, reprimand, suspend without pay, or terminate the contract of an employee, or (3) prohibit a third person from being on school property or at school activities for such time as may be determined by the Board.
- O. If either party is dissatisfied with the Board's decision, that party may appeal the decision by filing an appeal pursuant to law.

TOBACCO PRODUCTS (MS and HS)

The Deuel School District recognizes its duty to promote the health and safety of students, staff and citizens on district property and during school-sponsored activities. In accordance with this responsibility, it is the intent of the School Board to establish a tobacco-free school environment that demonstrates a commitment to helping students resist tobacco use and that emphasizes the importance of adult role modeling.

The use, possession, or promotion of tobacco on school property by students, employees, vendors, visitors and invitees is prohibited. Students and employees are also prohibited from using or promoting tobacco at school-sponsored activities off school property. Students participating in school activities are also subject to such rules as may exist pursuant to an applicable activity code of conduct.

For the purposes of this policy:

1. "Tobacco" means any substance or item, in any form, containing tobacco and electronic nicotine delivery devices (e-cigarettes), which may not contain tobacco;
2. "School property" means all district-owned, rented or leased buildings, grounds and vehicles;
3. "School-sponsored activity" means any planned, organized, endorsed, or supervised activity involving district students or staff that occurs either before, during or after regular school hours;
4. "Promotion" means the use or display of tobacco-related clothing, bags, lighters, or other material that is designed to encourage the acceptance or use of tobacco.

District employees in violation of this policy will be subject to disciplinary action. Visitors, vendors and invitees in violation of this policy will be subject to appropriate consequences, which may include being directed to leave school property.

The superintendent shall provide reasonable public notification of the district's policy within student and staff handbooks.

ALCOHOL AND OTHER DRUG USE (MS and HS)

The school years are among the most important in human development and the most vulnerable. Any substance that can interfere with the development of an adolescent must be evaluated as to its impact to both the young person and the community. Psychoactive and mood altering drugs can destroy the health and wellbeing of an individual. The school defines drug use as a serious health problem and is committed to discouraging this behavior and to encouraging young people to seek help should a problem arise.

The following document outlines policy on student abuse of psychoactive or mood altering chemicals in the Deuel School District. This policy is in effect on property owned or leased by the Deuel School District, at all school sanctioned activities on and off campus, on vehicles parked on school property. The Deuel School District will refer each case to the appropriate authorities.

Student members of the school community are expected to be aware of and understand these policies and comply with them. Parents are expected to be aware of and understand these policies and cooperate with the administration of them.

A student shall not possess, use, transfer, conceal, sell, attempt to sell, deliver nor be under the influence ("under the influence" is defined as manifesting signs of chemical use/misuse such as staggering, odor of chemicals on breath of

person, reddened eyes, nervousness, restlessness, falling asleep, memory loss or inappropriate behavior.) of narcotics drugs, or alcohol or use chemical substances which can affect psychological functioning or affect the education system of the school. Students shall not engage in drug use/abuse nor possess paraphernalia in specific to the use of chemicals. Students who use prescription drugs authorized by a licensed physician do not violate this policy if the students conform to the appropriate school policies.

The following procedures will be followed in dealing with possession, use, transmission, or being under the influence of chemicals:

1st violation

- a. The principal will notify the parent(s)/guardian(s) by phone to explain the incident and arrange a conference.
- b. The principal will suspend the student for five (5) days in compliance with student due process procedures.
- c. Within twenty-four (24) hours, the principal will notify the parent(s)/guardian(s) in writing of the suspension.

The Deuel School District strongly recommends that students with chemical abuse problems seek professional evaluation and treatment from a trained chemical dependency counselor or a licensed physician trained in chemical dependency. Because we believe that chemical dependency is preceded by misuse, we feel confident that such early intervention can benefit the student before significant harm or dependency results.

The suspension of a student who agrees to be evaluated and treated will be commuted to two (2) days. The school will provide a list of agencies/professionals who can do the assessment and provide treatment. The choice of agency/professional is left to the student and family. Fees for this assessment and treatment are the responsibility of the student and family.

Upon receipt of appropriate authorization, the agency or professional will notify the school principal that the student is willing to be evaluated and comply with the treatment process.

2nd and subsequent offenses:

- a. The principal will contact the parent(s)/guardian(s) to arrange a conference.
- b. The principal will suspend the student for ten (10) days in compliance with student due process procedures.
- c. Within twenty-four (24) hours, the principal will notify the parent(s)/guardian(s) in writing of the suspension.
- d. The principal will recommend to the superintendent that the student be expelled unless the following procedure is followed:
 1. The student must agree to be evaluated and treated by a trained chemical dependency counselor or a licensed physician trained in chemical dependency.
 2. Upon appropriate authorization, the agency or professional notifies the school principal that the student has accepted treatment. If the student is accepting treatment, the recommendation for expulsion may be commuted.

Supplying/Sale of Chemical (Drugs/Alcohol) or Material Represented to be a Controlled Substance:

- a. Within twenty-four (24) hours, the principal will notify the parent(s)/guardian(s) in writing of the suspension.
- b. Supplying or selling of chemicals will result in a ten (10) day suspension. The principal will recommend to the superintendent that the student be expelled in compliance with student due process procedures.
- c. The principal will refer the case to the police.
- d. A hearing on the case conducted by the superintendent will be held. Based upon the results of this hearing, the superintendent may recommend expulsion to the Board of Education.

ALTERNATE INSTRUCTION REQUIREMENTS

The parent, guardian, or other person in control of a child being provided alternative instruction shall submit proof of age when participating in athletics, fine arts, or activities. Any child being provided with alternative instruction and participating in South Dakota High School Activities Association activities shall be held to the same local training rules and South Dakota High School Activities Association transfer and non-academic eligibility rules as enrolled students. Pursuant to § 13-27-3 and before the current season of the sport or activity the alternative instruction child is participating in, the parent, guardian, or other person in control of a child being provided alternative instruction shall provide the appropriate school official with a copy of a transcript of the previous semester's completed coursework that is issued by the parent, guardian, or other person in control of the child. The parent, guardian, or other person in control of a child being provided alternative instruction shall notify the appropriate school official if the child becomes ineligible under South Dakota High School Activities Association or local school rules in so far as those standards apply to § 13-27-3. Nothing in this section confers any vested right in any student wishing to participate in any interscholastic activity to be selected for competition in such activity. However, any enrolled student who leaves an accredited program during the course of the school year and who will be provided alternative instruction is ineligible for participation in interscholastic activities for the balance of the current season of the sport or activity the student is participating in at the time of notification of alternative instruction.

STUDENT INTERVIEW POLICY

POLICE / DEPARTMENT OR SOCIAL SERVICES (MS and HS)

When students are at school or involved in a school activity off school grounds, the school has an obligation to the students, the parents, as well as to authorities such as law enforcement and the Department of Social Services. This policy attempts to balance the rights of students and parents with the rights and responsibilities of law enforcement and the Department of Social Services as those entities investigate juvenile delinquency/criminal matters and matters of child abuse and neglect. It is therefore the policy of the District that:

1. Should a law enforcement officer wish to talk with a student under the age of 18* while the student is at school and interview the students for a reason other than investigating suspected child abuse or neglect, the District will cooperate with all law enforcement agencies and allow them to interview your child. The District will make every attempt to notify you that your child is being interviewed.
2. Should the Department of Social Services or a law enforcement office be investigating suspected child abuse or neglect and wish to talk with a student under the age of 18* while the student is at school, the request to talk with a student shall be in writing and given to the school. The written request shall include the name of the person making the request, date of request, date of interview, and that the request is made for the reason of investigating suspected child abuse or neglect. The law in South Dakota requires investigation of suspected child abuse to be kept confidential and can be done without notification to parents. Therefore, the school will not notify parents of a request by the Department of Social Services or law enforcement to talk with a student in such instances.

*Upon the student reaching the age of 18, the student is a legal adult and has the authority to make decisions without parental involvement. However, the student, even if age 18 or older, may choose to contact his/her parents for advice before responding to a request by the authorities to meet with and talk to law enforcement and/or the Department of Social Services.

LOCKERS/STUDENT VEHICLES (MS and HS)

Each student will be assigned a locker. In rare cases it may be necessary for two students to share the same locker. At the end of the year, the student will be responsible for the locker that was assigned to them in the fall. If for some reason the student wants to change locker assignments, it must be reported to the principal's office. Students are urged not to leave money, jewelry, or anything of value in their lockers, clothing or desks. If you do so, you do so at your own risk. The school cannot be responsible if such things disappear. All lockers are loaned to students and the school retains control of the lockers. Since the school retains control of the lockers, they may be inspected anytime there is reasonable suspicion

that the student has something in the locker that is against school rules or state law. The District also reserves the right to cut or otherwise remove a lock from a locked locker. The same principle applies to the cars that are parked on school property. Students are not to open the locker of another student unless expressed permission is given from that student to do so. It is recommended that students take sufficient books, supplies, etc. with them for more than one class so that locker stops between classes are not necessary.

SEARCHES (MS and HS)

Safety is a major concern of the administration. The administration reserves the right to search students, student belongings, lockers and vehicles.

DRIVING MOTOR VEHICLES (MS and HS)

Students who drive regularly to school are to park on both sides of the street north of the school. Students will not be permitted to use cars during the school day or noon hour, unless they secure permission from the administration. If permission to drive is not secured from the administration, it will be considered as skipping school. The administration will use their discretion for punishment. The purpose of this regulation is to promote safety and to protect both parents and students. The courthouse parking area is not to be used by students. Violators may be given a ticket. Please cooperate with the county officials accordingly. Reminder, vehicles on school property and surrounding area may be subject to random searches. Illegal substances/items of any kind are not permitted on school grounds, including but not limited to tobacco, alcohol, weapons and/or munitions, and drugs.

NATIONAL HONOR SOCIETY SELECTION PROCESS (HS)

Selection to National Honor Society is an honor recognized throughout the nation. Selection to NHS is a privilege, not a right. Students who are members of NHS have met high standards of scholarship, leadership, service, and character. It is assumed that they will strive to maintain these high standards. Students do not apply for membership in the National Honor Society; instead, they provide information to be used by the local selection committee to support their candidacy for membership. Membership is granted only to those students selected by the Faculty Council. The Faculty Council consists of five faculty members selected by the high school principal. The NHS advisor is not a voting member of the Faculty Council. The following procedures will be followed in selecting members for National Honor Society:

- 1) Prospective members may be sophomores, juniors, or seniors with a cumulative grade point average of at least 3.5.
- 2) Students meeting the GPA requirement at the end of the fall semester will be invited to submit an information form to assist the Faculty Council in making their selections.
- 3) Any eligible student who does not submit an information form will not be considered for membership at that time.
- 4) The Faculty Council will meet as a group to consider each student's qualifications on the basis of service, leadership, and character. Each member of the Faculty Council vote on the individual qualifications of each prospective member.
- 5) Selection to NHS is by majority vote of the Faculty Council
- 6) Students who are not accepted for membership may be considered for membership the following year as long as the GPA requirements are met and a new information form is submitted.
- 7) As stated membership is a privilege and can be revoked, by vote of the committee, for conduct unbecoming to the National Honor Society.

STUDENT COUNCIL (HS)

The purpose and function of the Deuel High School Student Council is establishing better relations between faculty and students, to provide for student participation in school activities, to coordinate the activities of the school and to develop in the students a sense of personal responsibility.

The Student Council shall be made up of a student president, vice-president, and secretary/treasurer - elected by all students, and representatives from each class. Each senior high student running for president, vice-president, secretary/treasurer for the Student Council must pick up a petition in the guidance office and have 20 9th through 11th

grade students sign it. After all petitions have been turned in to the guidance office, an election will be held with 9th through 11th grades voting. This will be done in the spring of the year.

CLASS OFFICERS (HS)

Each of the classes shall organize for the purpose of carrying on their functions and social activities. Each class will choose officers in the fall of the year. A complete record of all class meetings and a class roll and a financial statement shall be kept by the secretary or treasurer of the class. This will be done in a class record book that may be picked up in the principal's office at the beginning of the year. At the end of each year this book must be returned to the office for safe keeping. The administration will appoint faculty members to be advisors for each class. Class meetings may be called by the class president with permission from the advisors and the principal with at least two days' notice.

MEDICATION ADMINISTRATION (MS and HS)

The safe and effective use of medications for the treatment of illness and disability has enabled many children to attend school. At Deuel School, every effort should be made to administer all medications at home. When it is necessary that students receive medications at school, arrangements need to be made with the school nurse.

For students grades 9-12, two options exist for medication administration in the school setting:

#1 - - Supervised administration: This option allows the Deuel School personnel to supervise the administration of the medication prescribed for the student. Because the law requires the nurse to have an order from a physician in order to administer medications (including over-the-counter medications, such as Tylenol), it is important for students and parents to plan ahead when medication at school is anticipated. For example, arranging medication needs in advance, for conditions such as migraine headaches or menstrual pain, will help the school nurse keep students safe and comfortable at school.

#2 - - Self administration: This option allows the student to bring one day's dose of the medication to school and self-administer the medication. This option is not available for controlled substances (ex. Ritalin). Self-management privileges are lost if the student does not use medication properly or responsibly.

LUNCH PERIOD (MS and HS)

All students are to be in the cafeteria, commons area, or gym during their assigned lunch period. Student in the gym are not allowed to have athletic equipment unless a faculty member is present. Students are not to be in other parts of the building or parking lot during their lunch break. If parents wish to have their student come home for lunch every day, they may do so upon request to the principal's office. On the way to the lunchroom, students are not to be running, pushing, or shoving. Violators of this will be refrained until all others have been served.

PASSES (MS and HS)

Students are not permitted in the halls during class periods unless they are accompanied by a teacher or have a hall pass from a staff member. Students are responsible for obtaining the written pass. During the class period, students are not to be anywhere in the building except in their classes unless they have a pink pass. Teachers should not permit students to leave their classes without issuing them this pass. The teacher signing the pass is assuming responsibility for the student until the student returns. Passes will be the following types:

1. Passes for less than a full period to a specific area
2. Passes to leave the school grounds will be issued ONLY by the principal's office
3. All students with passes must turn them back in before the end of the period and check back into the classroom
4. Passes to the offices may be granted by the teacher if there is a good reason for doing so. Students should use this pass and all others responsibly.

BUS REGULATIONS (MS and HS)

By the authority of the Board of Education of Deuel School District, a student is entitled to ride the school bus provided that he or she adheres to the safety rules. In the interest of safety, a student will be reported in writing to the principal for continued or willful disobedience of the following safety regulations and may be suspended from riding the bus for a period of time to be determined by the administration. During inclement weather, it is the responsibility of you, the parent, to see that your child is properly clothed to withstand the weather conditions in case of mechanical problems with the bus.

STUDENTS INDEBTED TO THE SCHOOL (MS and HS)

Report cards for students indebted to the school for breakage, fees, lost books, mutilated equipment, music supplies and rentals, etc. are not given until such indebtedness is paid. Slips designating the amount due and the department to which the individual is indebted may be secured from the business office. If these are not paid by the beginning of the ensuing school year, students will not be able to register for classes.

JUNIOR REQUIREMENT (MS and HS)

Each junior is required to either sell to the level or quantity stated by the advisor or pay \$100 to cover senior year expenses. If a junior does not sell a minimum level or quantity set by the advisor, the \$100 must be paid at the completion of the fund drive. The Deuel School District uses various resources to protect its K-12 students. The District adopted the CommonSenseMedia.org curriculum in 2011 for grades K-8. This curriculum satisfies all criteria for E-Rate compliance and is aligned to national standards for ISTE (International Society for Technology in Education), AASL (American Association of School Librarians), and the ELA (English Language Arts) Common Core. STUDENT POLICY FOR A GUN-FREE SCHOOL (MS and HS)

Student and employee safety is a paramount concern to the Deuel School Board. With this in mind, the school board shall assist and cooperate with teachers and administration in the government and discipline of the school. The board may suspend or expel from school any student for violation of rules, policies, insubordination or misconduct and administration may temporarily suspend any student in accordance with SDCL 13-32-4.2. The rules on policies may include prohibiting the following:

- (1) The use or possession of a firearm, as provided in SDCL 13-32-7, on or in any elementary or secondary school premises, vehicle or building that is owned, leased or used for elementary or secondary functions or activities.

The Gun-Free Schools Act of 1994 requires that schools:

- (1) Comply with the state law requiring a one (1) year expulsion; that is, subject to the case by case exception, any student who brings a weapon to school must be expelled for not less than one (1) year.
- (2) Provide assurance of compliance to the State Education Association.

Therefore, if a student has intentionally brought a firearm onto school premises, vehicle or building that is owned, leased or used for school functions or activities, the following plan will be implemented.

- (1) Students are entitled to due process:
 - A. If, after due process has been accorded, a student is found to have brought a weapon to school the GFSA requires expulsion for a period of not less than one (1) year.

- (4) Alternative educational services will only be provided if federal or state laws require that service.

The school district will allow usage of facilities for hunter safety courses. A properly certified instructor must teach the class.

SEPARATED / DIVORCED FAMILY POLICY (MS and HS)

I. School Neutrality / Parent Responsibility

The Deuel School District shall maintain strict neutrality between parents who are involved in an action involving the family (separation/divorce proceeding/divorced) as it is the intent of the District to promote the best interests of each student enrolled in its schools in partnership with both parents, unless otherwise directed by Court Order. It is the responsibility of the parent wishing to restrict a parental right to notify the District of any Court Order affecting student contact/student visitation and/or student records by submitting a certified copy of the Court Order to the Superintendent of Schools and a copy to the child's school building principal.

II. Student Contact / Student Visitation During School Hours

Unless a parent gives notification pursuant to paragraph I above, the District will assume that both parents have the right to contact and visit his or her child at school. For purposes of this provision, the Court Order restricting any right of contact and/or visitation needs to specifically restrict the right and a general order granting physical custody to one parent will not be deemed as sufficiently specific as to prohibit the noncustodial parent's right to contact and/or visit the child while the child is at school.

III. Release of Student to Noncustodial Parent

The District will not authorize a student enrolled in the District to leave the school premises with a noncustodial parent during school hours without the permission of the parent having primary physical custody of the child. For purposes of this provision, it is the responsibility of the custodial parent to provide the District with a copy of the Court Order granting custody pursuant to paragraph I.

IV. Release of Student Records

Pursuant to federal law (Family Education Rights and Privacy Act) both parents, regardless of marital status, have the right to access and have copies of student records and discuss the same with appropriate school employees, unless there is a Court Order specifically restricting this right of access. Any Court Order restricting the release of confidential student records to a parent is to be submitted to the District pursuant to paragraph I.

FIRE DRILLS (MS and HS)

We are required to conduct four fire drills during the school year. Evacuation procedures for each classroom are clearly posted near the exit in each classroom. Older students should be careful of the younger students. When the fire drill sounds, each classroom will follow the course which will be outlined in each room. All books and wraps should be left in the building. No one should enter the building again until the all-clear signal horn has been given by the principal.

NATURAL DISASTERS (TORNADOES) (MS and HS)

DEFINITION OF TERMS:

Tornado watch (forecast) is announced. This means that tornadoes are expected in or near our area.

Tornado warning means that a tornado has actually been sighted and may strike the area. Take shelter immediately.

PROCEDURE:

Tornado Watch: If a tornado watch is announced by the weather bureau, the superintendent or business manager will be notified immediately by the National Weather Service (NWS). The school official so informed will then immediately contact all building principals.

Tornado Warning: Signal will be given by principal. When a tornado warning is issued, take shelter immediately. You must take action to protect yourself and those under your supervision from being blown away, struck by falling objects or injured by flying debris.

When the fire bell sounds, all students and staff members are to leave the building quickly and quietly by the route posted in each room. When the tornado drill signal is given, all students and staff are to go to their designated area and assume the instructed position. Fire and tornado drills are to be posted in each room.

SCHOOL DISCONTINUANCE DUE TO WEATHER (MS and HS)

Three most common situations regarding winter storm emergencies:

1. School will be closed because of storm and buses will not go out on routes.
No classes will be held.
2. A delay in school opening time will be announced. School will start late and buses will go out on routes prior to the time school begins.
3. Storms which occur after school is in session.

Procedures will be as follows:

1. Schools will close. No classes will be held.
 - a. An ITC notify statement will be sent to all district stakeholders. This will be delivered in a text message for, phone call or an e-mail.
 - b. Post will be created on the school website and Facebook page.
 - c. Announcements will be made on the major network television affiliates prior to schools being closed.
 - d. Students shall not report to school.
2. If school is to start late, announcements will be made on the above radio and television stations. Students and parents are expected to listen to the radio and/or television for this announcement. Rural buses shall operate on a schedule to deliver students in time for new starting time. Dismissal time will be at the regular time.

School Health Assessments 2022-2023

From time to time during the year, health screening may be provided through a contract with the South Dakota Department of Health (DOH), which is subject to the rules and regulations of the Health Insurance Portability and Accountability Act (HIPAA). HIPAA requires that the DOH provide access to our Notices of Privacy Practices. You may view the DOH notice on our website at <https://doh.sd.gov/documents/HIPAANotice.pdf> or request a printed copy by contacting us at 1-800-305-3064.

Parents will be notified of any concerns identified during the health screenings so their child can be further evaluated by the provider of the parent’s choice.

When a vision or hearing screening indicates additional testing is needed, the nurse can discuss with school personnel the possible accommodations in the classroom that can be made for the benefit of the child.

If you agree to your child’s participation as indicated above, there is no need to sign or return this form to the school.

To Decline Services

_____ I agree to have my child participating in health screening, but do **NOT** want an abnormal hearing or vision screening result to be shared with school personnel
